

PRIMA[®] FLOWMETER MODEL 108AR/CR

MODEL 108AR - ARGON

MODEL 108CR - CO₂

PRIMA[®] Flowmeter Model 108AR/CR is a compact flowmeter regulator manufactured in accordance to EN ISO 2503 with the following features:-

- Drop Forged Brass Body.
- IPiston-Loaded design for precision flow.
- Preset outlet pressure at 3.5 bar.
- Polycarbonate (PC) flow tube with scale of 0 - 60 SCFH for CO₂ and 0 - 70 SCFH for Argon.
- Sintered Bronze Filter for all Inlet Stems.
- Suitable for Argon (Ar), Carbon Dioxide (CO₂) & mixed gases.

* Specification & design subject to change without prior notice.
