## PORTABLE WELDING ELECTRODE DRYER KS 5-450 / KS 10-450

A high quality and durable AC / DC electrode dryer, with reliable conventional coil wound heater.

Made with stainless steel inner casing and epoxy coated outer casing that last twice as long compared to normal paint against corrosion.

### Features:

- Electrodes can be easily loaded and unloaded
- Portable type - Small and compact complete with handle, convenient and easy to carry around
- Continuous heat for 100% protection from unpacking to use
- Accept dual input voltages

### SPECIFICATIONS:

Model	KS 5-450	KS 10-450
Electrode Capacity	5 KG	10 KG
Electrode Length	457mm	457mm
Pre-set Temperature	180°C	180°C
Voltage	AC 240V or DC 90 - 100V
