

WELDING ELECTRODE

KOBELCO LB-52U

AWS A5.1 E7016

Low Hydrogen type covered electrode for mild steel and 490MPa high tensile strength steel

Features:

- Suitable for one side welding of pipes
- Extremely good arc stability in one side welding with relatively low current

SPECIFICATIONS:

AWS Specification	A5.1 E7016
JIS Specification	Z3212 D4316
Other Specification	ISO 2560-A-E 42 2 B
Size	2.6mm, 3.2mm, 4.0mm, 5.0mm
